

# A Perfect Checkout Experience from Start to Finish

Easily accept payments on your site with Forte Checkout

A robust checkout solution that can be configured to your needs.

**Clean and user-friendly** – The responsive design overlays your existing site and reads perfectly on any device.

**Customizable payment form** – Maintain full control over the data collected via forms.

**Intelligent features** – Customers can store account information, set up recurring transactions and more.

**Support of Digital Wallets** – Apple Pay, Google Pay and PayPal.

**INTEGRATED CHECKOUT  
SOLUTION BUILT TO BE  
ROBUST YET FLEXIBLE**

## MADE FOR DEVELOPERS

Our full-stack APIs and detailed documentation make it easy to integrate with Forte Checkout using just a few lines of code.

Other integration options include REST API, AGI, Forte.js and React Native SDK.

### Why should you use Forte Checkout?

- Sensitive information is tokenized for added security
- Strong authentication and data integration
- Customers can save and edit payment and account information
- Stored payment information makes for simple return or recurring sales
- Customers stay on your site from cart to checkout with no redirects
- ADA compliant, ready with the standards for accessible design

### A checkout solution that has you covered.

**Swift and secure payments** – Our PCI-compliant solutions keep data safe using encryption and tokenization.

**Process any payment** – Accept credit/debit cards and eChecks online with Forte Checkout.

**Supporting hardware** – Compatible with point-of-sale devices for card-present solutions.
